## OUR DESIGN SERVICE

We offer a comprehensive design service to help you realise your ideas and get the most out of your space.

Refurbishing your kitchen can be a daunting prospect. We have a wealth of experience gained from designing and building bespoke kitchens. Our designers will work collaboratively with you to create a kitchen that is both highly functional and beautiful.

While every kitchen design is individual to you and your needs, our design service has been carefully tailored to fit every project, large or small.

OUR DESIGN SERVICE

## Finding the perfect layout

Following an initial consultation, we'll work together to design your layout, ensuring you get the most out of your new kitchen. You'll need to send us accurate dimensions, photos of the space, a list of requirements and any reference imagery or mood boards.

## Helping you visualise

We'll discuss any inspiration or mood boards you might have and talk you through our range of products, the material finishes and colours. Our designers will then present back visualisations of your dream kitchen.

OUR DESIGN SERVICE

## From sketch to site

At this stage we'll produce your final panel drawings and your kitchen will go into production. Our detailed plans are ready to share with your kitchen fitter and our team will be on hand to help with any questions during the installation.
